R.M.K BIOGRAPHY

Hailing from London, R.M.K is an exciting new project by Fossil Archive label head Roberto. It represents a faster and more intense take on his unique brand of Techno. He utilises his knowledge and past experiences, which include regularly playing at Berghain and Tresor in Berlin, as well as fabric in London, to develop his individual sound.

During his 20+ year career in music, he has formed friendships and worked in partnership with other respected artists such as Trevino (Marcus Intalex), Jamie Anderson, Robert Owens, Goldie and Nastia.

Although the focus is always on the very heart of the most raucous of raves, R.M.K never shies away from groove and funk. This is conveyed in a Live Show that utilises classic hardware from the golden age of UK Rave.
